

## **Damage that can be Caused by the Coronavirus**

### **Excerpt from the 743<sup>rd</sup> contact report of the 16<sup>th</sup> of June 2020**

**Ptaah** ... As for the leaders who you call intellectless, irrational and without any intelligence, I can also understand this and agree with you, because as a matter of fact the majority of all persons who hold state might is absolutely incapable of effective real governance. On the contrary, they are absolutely incapable of having free reign with regard to the running of a state, and certainly they are not in any form predestined to control a crisis situation and to initiate and carry out all the necessary and right measures, as would have been necessary and absolutely essential in the case of the rampantly spreading corona disease. However, now I must mention this again regardless, even if we do not want to talk about it anymore, because this is how it was and still is, as you say, because, to date, in practically every country in the world, a total of over one million human beings have died as a result of the rampantly spreading disease-pandemic since June 2019, but of that number only 500,000 of these will be officially announced by the end of this month, June, while the number of unreported cases will not be mentioned. The number of official deaths alone will continue to rise and will very quickly exceed 600,000, which according to our calculations will already happen by the end of the coming month, July; however, this will not mean the end of the rampantly spreading disease infections. This is because the whole thing is going to continue and will increase to even higher numbers as a result of the inconsiderateness and low intelligence of the governors who, by acting without intellect, rationality or responsibility, will order an extensive relaxation or even an end to the already otherwise inadequate lockdown measures. On the other hand, however, there is equally also the majority of the populations to be mentioned that will act just as irresponsibly and – contrary to intellect and rationality – will oppose the preventive measures, through which the rampantly spreading disease will further increase again in the coming weeks, spread again and claim many deaths.

When I now talk about the fact that the number of deaths continues to rise, then, for the time being, Europe will indeed be less affected by it than many other countries in the world, but the action of relaxing or ending safety measures, which is of low intelligence, will have serious consequences and will cause the infections and deaths to rise again, as it will also make the reintroduction of renewed measures, such as lockdowns and the mandatory wearing of masks and so forth, necessary. Quite especially in the USA, where Donald Trump, the confused mighty one of the state, continues to drive the corona catastrophe forward, which he has called forth due to his incapacity to govern, his megalomania and his devastating machinations that endanger the health of the peoples, the whole thing is progressing in an increasingly lethal form, as is the case in Brazil due to the imperious President Bolsonaro. Trump is a sociopath beyond compare, that is to say, a psychopathic human being who is completely limited and incapable regarding the capability of fine-spiritually perceiving feelings for fellow human beings or any other life forms, let alone being able to put himself in somebody's shoes in any form. Trump is absolutely incapable of weighing up the consequences of his stupidly brazen speeches as well as his fickle and confused decisions – which he often takes back in a matter of seconds – or his orders and his actions, just as he also cannot control his confused and pathological airs and graces. Trump is also fundamentally incapable of working out any definition with regard to reality and fiction; consequently, as a result of his low intelligence, he slowly but surely destroys the social system and the otherwise already ailing political structure in the USA, as well as partly in other countries around the world. Effectively, he is the most dangerous man in the world, who provokes and calls forth unpeace, terror and ruin as well as destruction and war all around, as well as hundreds of thousands of deaths in the population of the United States of America itself, and this as a result of his pathological inability to think, his low intelligence, his lack of intellect and rationality, his imperiousness, arrogance and megalomania.

The rampantly spreading corona disease will continue to spread around the world, while around 40 countries will remain particularly hard hit by the rampantly spreading disease for a long time and much suffering will continue to be inflicted on terrestrial humanity.

**Billy** If I can come back to Trample Tramp Trump; I would not be surprised if he has also succumbed to idiocy. However, now that we are at the rampantly spreading corona disease again, I want to ask you if you can look through the contents of this list here and tell me if it is complete or if there is anything else to add. Minister ... .. has sent it to me.

**Ptaah** Trump is indeed not what you say, but with regard to his consciousness he is damaged such that he is incapable of rethinking necessary facts coordinatively, putting them together, arranging them, drawing the right conclusions from them and implementing them in an evaluative form.

**Billy** Aha, you have come to the same conclusion as I did, because I have studied the guy, his whole demeanour and his modes of behaviour a little bit, and in this respect I have come to the conclusion that, in his consciousness he does not have any coordinative abilities, therefore he does not show any disposition, that is to say, capability, in any area of his modes of speech, behaviour and action and his free use of intellect or rationality. For that, no consciousness-based prerequisite is inherent to him, wherefore he is also not able to overview a situation or assess it, because in his hollow brain he lacks any ability for coordinated thought processes. From this it inevitably follows that, due to his lack of intelligence, he cannot – in terms of his distinctly weak intellect and his lack of rationality – grasp, judge, understand and coordinate an emerging or existing situation, thing, crisis, happening or result and so forth, which is apparent to every normal human being who is not impaired in his/her consciousness, and he cannot bring it down to a common denominator. In my opinion, that which he has achieved in his life and may continue to achieve in the future therefore depended and depends, in some unworthy form, on his lack of intelligence, but above all on the simple-mindedness and low intelligence of those who fall for his demeanour, his loud-mouthedness, intrigues, lies, acting skills, disingenuousness and his fraudulently giving himself an advantage.

**Ptaah** You were a good student of my father, Sfath. Your assessment really only allows for that which really exists with this man who is incapable of state leadership and is very dangerous to the world. However, since you have now stated your conclusions and also expressed what is to be thought of the majority of the would-be governors, who behave like 'immature children' and 'scrounge around thoughtlessly' and try to 'outdo' – as you call it – themselves and their comrades with imbecilic ideas, then this is indeed the case according to our observations. In the governments there are effectively only a few persons to be found who are connected to intellect, rationality, logic and righteousness, because the majority of the leaders of state are such in name only, but not in reality and truth. The majority of all terrestrial responsible ones of the state do not correspond to leaders of countries, but simply imperious ones who exercise the might of the state, who – as you sometimes say – walk over dead bodies, as is currently the case throughout the world in the sense that, by the end of this month, due to the rampantly spreading corona disease, more than 500,000 human beings will have to be mourned, after which then, in a few weeks' time, there will be more than 600,000, as our forecast has shown. And for this, on the one hand, the majority of all the world's mighty ones of the states will bear the blame, because they are incapable – in their inability to lead and in their lack of intellect and rationality – of taking all the necessary precautions and safety measures, and have been so from the very beginning. On the other hand, however, the majority of the population itself will also bear a great amount of blame, because it indifferently, simple-mindedly, stupidly, hedonistically and irresponsibly disregards, negates and trivialises the danger of the rampantly spreading disease, which will bring infection to many and also death to a large number of them.

Coming back to what you have said about the responsible ones of the state, it is indeed the case that the majority of them are incapable of exercising their responsibilities. Despite their physical adulthood, these persons are no more than half-grown children and therefore, with regard to their entire cognition, that is to say, with regard to intellect, rationality, logic and the ability to decide and act in the right form, they are not grown up, they are uneducated and, as a result of their lack of ability to think, they are of very low intelligence and therefore also unpredictable.

**Billy** This is also known to some people in the governments, who, however, cannot assert themselves because they are ignored or simply shouted down by those who are imperious, as you can read here from this letter which Mister ... .. wrote to me. I have already told you about him several times and also shown you some of his letters, which, however, unfortunately I always have to destroy, as you know, because, as a member of government, he has to remain unrecognised.

**Ptaah** You are talking about minister ... ..

**Billy** No, for years this man used to come first to me, then to Guido, although he was very religious. He too had to hide his visits with me and Guido over all those years, because if anyone in his circles had known that he was in contact with us and asked us for advice, he would have been shunned as a government official. But Bernadette said that he has died now. This man here, however, is another one who is indeed also Prime Minister, a friend of ...

**Ptaah** The man has not died as Bernadette stated, rather he no longer comes to the center because Guido – who he had especially befriended – has died. However, when I read this letter now, then this man, ... .., confirms exactly what we have been ascertaining again and again for months, however, about which all those who are involved in it keep silent. They do not dare to say that they read their information from your FIGU website and they publicly attribute it to themselves.

**Billy** You have already said that repeatedly. However, as you can see here, he wants to call me, as he always announces first, on ... .., in which case, however, nobody is allowed to hear what is being said. He also calls me on my secret phone, because it is safer. That which he writes on the list here, which I already mentioned; to that he now wants to have more information, which is why I want to read it to you.

He also writes here that you and we are due great thanks for the early information regarding the listed afflictions that result from the rampantly spreading corona disease. About that he is now asking whether the main symptoms, which he has listed here, are complete or if there are some things that need to be added, about which I then, however, must ask you separately in order to be able to give him an appropriate answer. What I want to say now is that, according to the information you have given me, I have specifically mentioned some things to him by telephone, which are not particularly mentioned in the reports of the conversations. In his list you will now find the following:

- 1) In closed rooms pathogens of the rampantly spreading disease are transmitted via the air.
- 2) In windy conditions outdoors, corona viruses are carried further than in calm conditions, therefore greater distances from person to person must be maintained.
- 3) If persons stand too close together, there is a risk of infection, namely even if unsuitable simple masks are worn.

**The coronavirus can bring about mild or severe organic damage, such as:**

- 4) Damage to the lungs
- 5) Damage to the heart
- 6) Damage to the coronary arteries
- 7) Damage to the heart valves
- 8) Damage to the respiratory tract
- 9) Damage to the kidneys
- 10) Damage to the brain
- 11) Damage to the consciousness
- 12) Damage to the pancreas
- 13) Damage to the blood vessels
- 14) Damage to the mucous membranes
- 15) Damage to the limbic system
- 16) Damage can generally befall all organs.

- 17) There is no life-long immunity to the coronavirus.
- 18) Even after the end of the pandemic, the coronavirus will continue to exist for all time.
- 19) There is no herd immunity.
- 20) Falling ill with the corona and recuperating does not protect one from a new infection.
- 21) Having recovered from corona, a further infection can be fatal.
- 22) Even mild cases of corona disease can bring about various organic afflictions.
- 23) Various organic afflictions, which arise due to the coronavirus, settle undetectably in the organs and can trigger completely different ailments and diseases years or decades after a recovery.
- 24) The coronavirus has a long-term effect in the human body.
- 25) The coronavirus also befalls pets and all other mammals, but partly also non-mammals.

So this is therefore the list by ... .. about which he writes and asks if there is anything more to be said about it openly, about which I will ask you later, however, because he is still asking some things here that are not to be discussed openly. But here he still wants to know who is really to blame for the Corona pandemic, because he is not really clear about that, because I told him on the telephone that China is not guilty alone, because the majority of all governments and populations of all states worldwide have failed completely, thus also Germany, to which he then asked what is happening in Switzerland. To that I also told him that the majority of the Swiss government and population had failed like everyone else. Also I truthfully answered his question regarding the story that the coronavirus had caused the rampantly spreading disease through a pangolin animal at a market in Wuhan, explaining namely that this is a lie because this false assertion really is a lie and the rampantly spreading disease was spread from a secret laboratory. Thereto I took the liberty of telling the minister that the origin of the rampantly spreading disease can be traced back to an order by Mao Zedong who, in the 1970s, still before his death, together with the American ... ..hatched an evil plot that consisted of researching and producing a rampantly spreading disease agent in laboratories, which was then to be imported into the USA by the American and cause a deadly rampantly spreading disease there. This was to be the revenge for the fact that he, the American, ... .. could take revenge for what ... ..

**Ptaah** You must be silent about this.

**Billy** I did that, because I neither mentioned his name, because I am only mentioning it to you, nor did I say what the American's reason was for negotiating something so vengeful with Mao, who also had a hell of a hatred for the mighty ones of the USA, which is why he got into the plan of revenge. Mao was an unparalleled hater of America and when ... went to see him, he told her that he would personally massacre any American who would come into his hands. She told me that Mao was hopping mad, because through the intelligence service he knew that the mighty ones of the USA were planning an insane war in order to conquer the world, in which case they wanted to drop, believe it or not, 12,000 atomic bombs during the 'Cold War', wherethrough they would have destroyed the world and razed everything to the ground. The whole thing of dropping a carpet of atomic bombs was to happen in Europe, the Soviet Union and in China, wherethrough also millions of the entire civilian populations were to be wiped out. To this end and back then, many US nuclear bombers were already on the move worldwide for a long time, day and night, without interruption and they could have struck at any time and plunged the Earth's surface into a lunar landscape and into a nuclear contamination. ... also told me that Mao Zedong saw the USA as a state of world criminals, which since time immemorial and all over the world provoked war, murder, manslaughter and terror, interfered politically and secretly everywhere in foreign countries, moved huge masses of weapons into crisis countries and thus promoted insurrections and wars in these countries by means of US secret service machinations, in order to then sneak into these countries and their governments in an ingratiating form.

**Ptaah** Whatever was said by Mao Zedong shortly before his death to ... was also recorded by her, therefore I am fully informed about it and can say that, even if also much delayed, the revenge plan of the American ... is now finally being fulfilled. However, today it does not hit the ones who were guilty then, but innocent ones who must atone for what was done to ... , that is to say, human beings in

America who have no idea about the true origins of the rampantly spreading corona disease and that the real culprit for it died decades ago and that the rampantly spreading corona disease is a posthumous revenge for dirty US-American governmental machinations.

**Billy** However, because practically the whole world has failed regarding the outbreak of the corona pandemic and in fact due to the majority of all those in power and of the populations altogether not taking the right protective measures and consequently none being implemented, the terribleness was able to occur. Only therethrough was the corona pandemic able to form and quickly spread throughout the entire world; but nobody wants to talk about this today and rather blames only China for all of it. Even though the rampantly spreading corona disease basically started in China, the whole world is to blame because it did not act right and responsibly. China and its government were only the origin and can be blamed for it in this regard, because nothing was done and they acted laxly. However, as far as the whole world is concerned, the blame for the spreading of the rampantly spreading disease lies with the majority of all governments and populations who would have been responsible for containing the whole thing before the pandemic could have occurred.

**Ptaah** That is right.

*Translation: Vibka Wallder; corrections: Vivienne Legg and Christian Frehner.*
